RECOMMENDED READING. By Michelle Jennings Wiebe, Special to the Times . Published: February 9, 2013. Mid-century modern. Mid-century modern

style Eichler Homes were built in the 1950s and 1960s. Builder Joe Eichler fused the modernist styles made popular at the time by architects Frank Lloyd Wright and Richard Neutra with mass production, affordable ... Written by an expert on 20th-century architecture, 100 Years of Architecture has the authority to serve both architecture students and professionals, but packed with more than 300 images, it will also appeal to the general reader., LifeWay Architecture begins 2018 working toward the next 100 years of serving the Church, having marked its centennial anniversary in 2017. LifeWay Architecture begins 2018 working toward the next 100 years of serving the Church, having marked its centennial anniversary in 2017., Architecture impacts how you feel every day, which isnâ€™t surprising considering how much time we all spend inside buildings. The average American, for example, spends 90 percent of their time indoors, yet so many of our buildings leave us without natural light, shelter us with low ceilings, and ignore our personal, social, and environmental needs.
