trade-offs with productivity, stability and
equitability Gordon R. Conwayl 4.1
INTRODUCTION The phrase 'sustainable
agriculture' has acquired a diversity of
meanings., Agroecosystem analysis is a
thorough analysis of an agricultural
environment which considers aspects from
ecology, sociology, economics, and politics
with equal weight. There are many aspects
to consider; however, it is literally impossible
to account for all of them. This is one of the
issues when trying to conduct an analysis of
an ..., Agroecology is the study of ecological
processes applied to agricultural production
systems. Bringing ecological principles to
bear in agroecosystems can suggest novel
management approaches that would not
otherwise be considered. The term is often
used imprecisely and may refer to "a
science, a movement, [or] a practice".
Agroecologists study a variety of

agroecosystems.
