This paper explains the impact of corruption on the level of earnings opacity internationally. The results of a regression of measures of earnings opacity on corruption

show a significant relationship between the level of corruption and the level of earnings opacity after controlling for economic

development, human development, economic freedom, and size of government.,

Many researchers have argued that if the market is efficient, investors would have placed higher value on the firms with greater

intellectual capital efficiency (Chen, Cheng, & Hwang, 2005; Firer & Mitchell Williams, 2003;

Riahi-Belkaoui, 2003; Maditinos et al., 2011; Shiri & Mousavi, 2015). Chen et al.

(2005) argued that if intellectual capital is regarded as a valuable resource for a firm's

competitive advantage, it will contribute to a firm's financial performance., Download this
