Select from one of the four options below, A

radio-controlled aircraft (often called RC

aircraft or RC plane) is a small flying

machine that is controlled remotely by an

operator on the ground using a hand-held

radio transmitter. The transmitter

communicates with a receiver within the craft

that sends signals to servomechanisms

(servos) which move the control surfaces

based on the position of joysticks on the

transmitter., Hi All, I am thinking about

building a receiver for the air-band (it should

be fun to listen to the pilots talking I have

found a few designs on the net but they are

either too simple (in fact little better than

crystal radios) or they could work but use

obsolete components, for example:, A model

aircraft is a small sized unmanned aircraft or,

in the case of a scale model, a replica of an

existing or imaginary aircraft. Model aircraft

are divided into two basic groups: flying and

non-flying. Non-flying models are also

termed static, display, or shelf models.,
