Recursion in computer science is a method of solving a problem where the solution depends on solutions to smaller instances of the same problem (as opposed to iteration). The approach can be applied to many types of problems, and recursion is one of the central ideas of computer science.

"The power of recursion evidently lies in the possibility of defining an infinite set of objects by a ...

Question: I saw a disturbing story on CNN Money: "College job hunt gets tougher as campus interviews fade."

It's about how fewer companies are doing on-campus interviews because of the lack of jobs. Rather, some companies are having a machine do the interview.
