Simulations, September, Stamping (also  
known as pressing) is the process of placing  
flat sheet metal in either blank or coil form  
into a stamping press where a tool and die

surface forms the metal into a net shape.  
Stamping includes a variety of sheet-metal  
forming manufacturing processes, such as  
punching using a machine press or stamping  
press, blanking, embossing, bending,  
flanging, and coining., Free or open-source.
