Search results, The Bayley Scales of Infant and Toddler Development (Bayley-III is the current version) is a standard series of measurements originally developed by psychologist Nancy Bayley used primarily to assess the development of infants and toddlers, ages 12–42 months. This measure consists of a series of developmental play tasks and takes between 45–60 minutes to administer and derives a ... The distinguishing characteristics of old age are both physical and mental. The marks of old age are so unlike the marks of middle age that legal scholar Richard Posner suggests that, as an individual transitions into old age, he/she can be thought of as different persons "time-sharing" the same identity., View the script, footnotes, bibliography, index and other documentation related to EHD's documentary DVD The Biology of Prenatal Development., Quality preschool programs that develop the whole child through age-appropriate socioemotional and

cognitive skill-building hold promise for significantly improving child outcomes. However, preschool programs tend to either be teacher-led and didactic, or else to lack academic content. One preschool model that involves both child-directed, freely chosen activity and academic content is Montessori., Archives and past articles from the Philadelphia Inquirer, Philadelphia Daily News, and Philly.com., ^Cassidy J.
