Nucleic acid structure refers to the structure of nucleic acids such as DNA and

RNA. Chemically speaking, DNA and RNA are very similar. Nucleic acid structure is

often divided into four different levels: primary, secondary, tertiary and quaternary.,

King's College London (informally King's or KCL) is a public research university located

in London, United Kingdom, and a founding constituent college of the federal University

of London. King's was established in 1829 by King George IV and the Duke of Wellington,

when it received its first royal charter (as a university college), and claims to be the fourth oldest university institution in ...,
