Mentorship of Graduate Student Instructors,
2012, Behavioural genetics also referred to
as behaviour genetics, is a field of scientific
research that uses genetic methods to
investigate the nature and origins of
individual differences in behaviour.,
ABSTRACT. The aim of this paper is to
propose a survival credit risk model that
jointly accommodates three types of
time-to-default found in bank loan portfolios.,
Twin studies are studies conducted on
identical or fraternal twins. They aim to
reveal the importance of environmental and
genetic influences for traits, phenotypes, and
disorders., Screening of marigold (*Tagetes
erecta* L.) cultivars for drought stress based
