BOATBUILDING WITH PLYWOOD PDF -

Search results, Stitch and glue is a simple boat building method which uses plywood panels stitched together, usually with copper wire, and glued together with epoxy resin. This type of construction can eliminate much of the need for frames or ribs. Plywood panels are cut to shape and stitched together to form an accurate hull shape without the need for forms or special tools., Our fourth edition is in print, and now also available by email in PDF format. It includes lots of new and updated information, and features complete plans and instructions for building two Jordan Wood Boats favorites: the 12 ft. solo canoe "Newt", and the cradle boat "Papoose".
