Overview Engineered success. BTEC HND Electrical and Electronic Engineering offers a broad base of core modules with the opportunity to select some modules in your second year.

Course-specific requirements. All courses have specific entry requirements which are shown in each individual course page.. Some courses require prior study of specific subjects and may also have minimum levels of attainment required at GCSE or equivalent, particularly in English Language

and/or Mathematics., Corfe Hills School is in a fabulous location within easy reach of Bournemouth and its beaches, Poole and its harbour, the Jurassic Coast and the Dorset countryside., What is a target grade? The end of Key Stage 4 targets (the grades a student should gain at the end of Year 11) are taken from national data provided by the government (DfE). They take into account previous attainment and other contextual factors., Key benefits. Flexible learning - at the beginning of the course, we provide you with a strong foundation in business management. Then you have the freedom to explore the areas that really interest you. Expert teaching - research feeds into all our teaching. This means youâ€™re always in the know about the latest industry strategies.,

Welcome INTRODUCTION Hautlieu 2 I Hautlieu - A Level & IB Diploma Prospectus 2016 Thank you for the interest you have shown in our school. We are pleased that you are, You gain fundamental analytical knowledge and techniques to complete the core modules of higher national engineering programmes. It is a base for further study of analytical methods and mathematics, needed

for the more advanced option modules., We have made minor amends to the Assessment Guidance within the units of this Level 3 suite of qualifications to ensure clarity. Minor amendments have also been made to the Model Assignment for unit 1., What is mechanical engineering? Simply put, mechanical engineering is the design, manufacture and maintenance of mechanical systems. This said, mechanical engineering is one of the broadest of the engineering disciplines and will offer you a wide choice of options in industry., The course blends traditional lectures, laboratory practices and computer workshops to give you a great learning experience. Mathematics and thermodynamics are essential supporting disciplines, leading on to in-depth analysis of chemical reaction, distillation, fluid flow and heat transfer., Our Construction Engineering Management BSc (Hons) degree is a multidisciplinary, broad-based building course with a focus on the technical and managerial aspects of construction management.
