be carried or worn by a person. It is designed  
to keep working despite the motions caused  
by the person's activities. A wristwatch is

designed to be worn around the wrist,  
attached by a watch strap or other type of  
bracelet.A pocket watch is designed for a  
person to carry in a pocket.. Watches

-military-watch july 24, The history of  
watches began in 16th century Europe,  
where watches evolved from portable  
spring-driven clocks, which first appeared in  
the 15th century. The watch which developed  
from the 16th century to the mid 20th century

was a mechanical device, powered by winding a mainspring which turned gears and then moved the hands, and kept time with a rotating balance wheel., Again, I am going to focus on the 1960s Timex models as they are the ones I have personal experience with. In the men's watches, the automatic movements included the 29, 31 and 32 which were all used in the Viscount models, and the 72 which was the only jeweled movement in the entire brand was the heart of the 21 Jewel line.,
