of engineering, a chemical engineer is a  
professional, who is equipped with the  
knowledge of chemical engineering, works  
principally in the chemical industry to convert  
basic raw materials into a variety of products,  
and deals with the design and operation of  
plants and equipment., The Chemical

you will have the freedom to tailor your study  
programme to your interests through a range  
of specialist modules such as nuclear  
chemical engineering and biochemical  
engineering., By joining Teesside  
University's chemical engineering  
degree you will be on a path to full  
registration as a chartered engineer with one  
of the highest earning potentials amongst the  
engineering professions., This four-year  
programme builds upon the knowledge and  
experience offered by the Engineering  
(Chemical) BEng programme with the  
addition of a final-year research project and  
advanced modules, and is a direct route to  
IChemE membership and Chartered (CEng)
