Documentation of Medical Records
Introduction: â€œ In a continuous care
operation, it is critical to document each
patientâ€™s condition and history of care.
â€œ To ensure the patient receives the best
available care, the information must be
passed among all members of the
interdisciplinary team of caregivers., The
clinical documentation or source
document/documentation referred to by the
coder should describe the patientâ€™s
condition using terminology that includes
specific diagnoses, as well as symptoms,
problems, or reasons for the service., Clinical
Documentation Improvement Chapter 5 |
