contents in a table cell into another table

Answered by: Zack Lyon and Gavin B.
Rumble, PE, I have a question in my
drawing. I am trying to have each dimension
show with two places after the decimal point.
The way it is set now all the dimension all
show as a whole number (ex. 2, 8, 19, 48)
which I would like it to show on the drawing
and .pdf, as (ex. 2.00, 8.00, 19.00, 48.00).,
