Revised July 2006 This module is designed
for those who use the Developmental
Assessment of, The opinions and any factual
errors expressed in the report are those of
the authors and not of Child Trends, nor
does the content of this publication
necessarily reflect the views or policies of the
U.S., The DAYC-2 was normed on a national
sample of 1,832 children; characteristics of
the normative sample approximate the 2010
census. Standard scores, percentile ranks,
and age equivalents are provided for each
domain, and for overall general development
if all five domains are tested., No Evidence 2
â€œ While this population was included in the
total sample of children, separate analyses
for this sub-group were not conducted by the
developer. Note: These tools could be used
in addition to the tools in Table 1 for cases in
which a more detailed assessment of a
specific developmental domain is warranted
or desired., The DAYC-2 helps you identify
children with possible delays in the domains

of Cognition, Communication,
Social-Emotional Development, Physical
Development, and Adaptive Behavior., The
