page. Postings within the last 90 days are

also listed in our biweekly emails, sent to

5,610 subscribers., Smallpox was an

infectious disease caused by one of two virus

variants, Variola major and Variola minor.

The last naturally occurring case was

diagnosed in October 1977 and the World

Health Organization certified the global

eradication of the disease in 1980. The risk

of death following contracting the disease

was about 30%, with higher rates among

babies., News and Press Releases for
