DIAGRAMA ELECTRICO MITSUBISHI L200

PDF - Search results, Ulises La distribucion de la mitsubishi l200 se cambia cada 90.000km maximo 100.000km se cambian las dos correas dentadas los rodillos y el rodillo tensor y el tensor hidraulico lo ideal seria las correas originales pero eso depende de ti y cuanto quieras gastar porque hay alternativas pero algunas son de mala calidad y duran menos cuidate saludos!
