AND REGULATIONS OF DRY DOCKS

MAINTENANCE YARD OCCUPATION The

dry docks are designed for boat maintenance

only, and must not be used, at any time., Dry

dock is a structured area wherein

construction, repairs and maintenance of

merchant vessels and boats are carried out.

The unique construction allows the water to

be filled up in that area, also known as lock,

so that vessels can be maneuvered in and

out of the area., and persons concerned with

safety and health in dock work, such as

government authorities, employers and

workers, manufacturers of equipment, and

professional bodies dealing with occupational

safety, Sound Bridge & Dry Dock Co., 349

F.2d 571 (9th Cir. 1965) (Section 20(a)

cannot bring an injury within the pre-1972

coverage of the Act on the facts presented, involving an employee injured on land in the performance of a non-maritime contract and on a, A dry dock (suhi dok; remontno brodogradilište) is a type of dock consisting of a rectangular basin dug into the shore of a body of water and provided with a removable enclosure wall or gate on the side toward the water, used for major, L148 Safety in Docks: Approved Code of Practice and guidance (ACOP) covers safety in dock operations and is aimed at those who have a duty to comply with provisions of the Health and Safety at Work etc Act 1974., Â§ 91.40-3 Drydock examination, internal structural examination, cargo tank internal examination, and underwater survey intervals. (a) Except as provided in paragraphs (b) through (g) of this section, each vessel must undergo drydock, internal structural, and cargo tank internal examinations as follows:
