m Éª k s, iÈ• k É™-/) is the social science

that studies the production, distribution, and

consumption of goods and services..

Economics focuses on the behaviour and

interactions of economic agents and how

economies work. Microeconomics analyzes

basic elements in the economy, including

individual agents and markets, their

interactions, and the outcomes of

interactions., Box and Cox (1964) developed

the transformation. Estimation of any

Box-Cox parameters is by maximum

likelihood. Box and Cox (1964) offered an

example in which the data had the form of

survival times but the underlying biological

structure was of hazard rates, and the

transformation identified this., Education
