Engineering training in Kenya is typically provided by the universities. Registration of engineers is governed by the Engineers Registration Act. A candidate stands to qualify as a registered engineer, R.Eng, if he/she is a holder of a minimum four years post-secondary Engineering Education and a minimum of three years post graduation work experience., Proposed Syllabus For B.Tech Program in Materials Science and Metallurgical Engineering By C.S.J.M.University,Kanpur, Electricity is the set of physical phenomena associated with

the presence and motion of electric charge. Although initially considered a phenomenon separate from magnetism, since the development of Maxwell's equations, both are recognized as part of a single phenomenon: electromagnetism. Various common phenomena are related to electricity, including lightning, static electricity, electric ...

The idea of threshold concepts emerged from a UK national research project into the possible characteristics of strong teaching and learning environments in the disciplines for

undergraduate education (Enhancing Teaching-Learning Environments in Undergraduate Courses), 1.

INTRODUCTION - A transistor is a small electronic device that can cause changes in a large electrical output signal by small changes in a small input signal. That is, a weak input signal can be amplified (made stronger) by a transistor. For example, very weak radio signals in the air can be picked up by a wire antenna and processed by transistor amplifiers until they are strong enough to be ...
