ENCYCLOPEDIA OF THE HUMAN BODY

PDF - Search results, An encyclopedia or encyclopaedia is a reference work or compendium providing summaries of information from either all branches of knowledge or from a particular field or discipline. Encyclopedias are divided into articles or entries that are often arranged alphabetically by article name and sometimes by thematic categories.

Encyclopedia entries are longer and more detailed than those in most ...

Transhumanism (abbreviated as H+ or h+) is an international intellectual movement that aims to transform the human condition by developing and making widely available sophisticated technologies to greatly enhance human intellect and physiology..

Transhumanist thinkers study the potential benefits and dangers of emerging technologies that could overcome fundamental human limitations as well as ...
