Plus you'll meet colleagues across all science disciplines, all grade bands and teaching stages, from the newest teacher to the veteran administrator, who share a passion for science education., Chemistry is the scientific discipline involved with compounds composed of atoms, i.e. elements, and molecules, i.e. combinations of atoms: their composition, structure, properties, behavior and the changes they undergo during a reaction with other compounds. Chemistry addresses topics

such as how atoms and molecules interact via chemical bonds to form new chemical compounds., Providing researchers with access to millions of scientific documents from journals, books, series, protocols and reference works.
