Enterprise architecture (EA) is a strategic  
planning process that translates an  
enterprise's business vision and strategy  
into effective enterprise change. The EA  
program institutes a collaborative, shared  
planning process., Enterprise Architecture  
Planning. Developing a Blueprint for Data,  
Applications, and Technology. ... Praise for  
Enterprise Architecture Planning "... the book  
has given me a wealth of good, fresh ideas  
about every facet of the architecture process

... makes a substantive contribution to the body of IS planning knowledge." ... Enterprise Survey ..., Much of the early Enterprise Architecture work focused on enterprise-wide Technology (or infrastructure) Architecture efforts -- this includes early work by META Group and TOGAF. Projects using this narrow concept of EA focused on establishing technology standards and, The enterprise architecture development should be managed as a formal project by an organizational entity that is held accountable for success. Since the EA facilitates change based upon the changing business environment of the organization, the
