liabilities, equity, income, expenses and cash
flows of the parent (company) and its
subsidiaries are presented as those of a
single economic entity", according to
International Accounting Standard 27
"Consolidated and separate financial
statements", and International Financial
Reporting ..., Accounting or accountancy is
the measurement, processing, and
communication of financial information about
economic entities such as businesses and
corporations. The modern field was
established by the Italian mathematician
Luca Pacioli in 1494. Accounting, which has

been called the "language of business",
measures the results of an organization's
economic activities and conveys this ..., 2
