information about economic entities such as

businesses and corporations. The modern

field was established by the Italian

mathematician Luca Pacioli in 1494.,

Finance is a field that is concerned with the

allocation (investment) of assets and

liabilities over space and time, often under

conditions of risk or uncertainty. Finance can

also be defined as the science of money

management., The third view is that the

financial crisis was at least in part caused by

a systemic failure of corporate governance.

The failure of corporate governance was not

purely an implementation issue, but more a

systemic failure of institutional arrangements

that were underpinned by increasingly

popular paradigms or paradigmatic

assumptions like ..., The relevance of the
