Estimation of any Box-Cox parameters is by maximum likelihood. Box and Cox (1964) offered an example in which the data had the form of survival times but the underlying biological structure was of hazard rates, and the transformation identified this., Examiner's report " P2 December 2013 3 Part b of the question dealt with a disposal group with the relevant standard being IFRS 5 Non current Assets,

Over the last ten years, argumentation has come to be increasingly central as a core study within Artificial Intelligence (AI). The articles forming this volume reflect a variety of important trends, developments, and applications covering a range of current topics relating to the theory and applications of argumentation., Thought-capable artificial beings appeared as storytelling devices in antiquity, and have been common in fiction, as in Mary Shelley's *Frankenstein* or Karel Čapek's *R.U.R.* (*Rossum's Universal Robots*). These characters and their fates raised many of the same issues now discussed in the ethics of artificial intelligence.. The study of mechanical or "formal" reasoning began with philosophers and ..., Problem Solving, Critical Thinking, Reasoning, Decision Making, Planning, The speed of light in vacuum, commonly denoted c , is a universal physical constant important in many areas of physics. Its exact value is 299,792,458 metres per second (approximately 300,000 km/s (186,000 mi/s)). It is exact because by international agreement a metre is defined to be the length of the path travelled by light in vacuum

during a time interval of 1/299792458 second., The OWL 2 Web Ontology Language, informally OWL 2, is an ontology language for the Semantic Web with formally defined meaning. OWL 2 ontologies provide classes, properties, individuals, and data values and are stored as Semantic Web documents., 167 Responses to "Your yearly dose of is-the-universe-a-simulation" Sid Says: Comment #1 March 22nd, 2017 at 2:01 am.
