is a website devoted to probability,
mathematical statistics, and stochastic
processes, and is intended for teachers and
students of these subjects. The site consists
of an integrated set of components that
includes expository text, interactive web
apps, data sets, biographical sketches, and
an object library., Mathematics (from Greek
μάθημα, "knowledge, study,
learning") is the study of such topics as
quantity, structure, space, and change. It has
no generally accepted definition..
Mathematicians seek and use patterns to
formulate new conjectures; they resolve the
truth or falsity of conjectures by mathematical
proof. When mathematical structures are
good models of real phenomena ..., Today,
most professional statistical training is

received at the undergraduate, as well as at
the graduate level. A major in statistics and a
minor in any of the other related areas, such
as mathematics, computer science,
agriculture, biological sciences or social
sciences provide a good blend of training
suitable for many jobs in industry,
government and academic institutions.,

In statistics, the standard deviation (SD, also represented by the Greek letter sigma σ or the Latin letter s) is a measure that is used to quantify the amount of variation or dispersion of a set of data values. A low standard deviation indicates that the data points tend to be close to the mean (also called the expected value) of the set, while a high standard deviation indicates that the ...,
