"measurement") is a branch of mathematics

concerned with questions of shape, size,

relative position of figures, and the properties

of space. A mathematician who works in the

is a mathematical system attributed to

Alexandrian Greek mathematician Euclid,

which he described in his textbook on

geometry: the Elements.Euclid's method

consists in assuming a small set of intuitively

appealing axioms, and deducing many other

propositions from these.Although many of

Euclid's results had been stated by earlier

mathematicians, Euclid was the first to show
