Rev. 1.0 5/20/10 2 Table of Contents 1

The AOS Reliability Program.....3, A wafer,
also called a slice or substrate, is a thin slice
of semiconductor material, such as a
crystalline silicon, used in electronics for the
fabrication of integrated circuits and in
photovoltaics for conventional, wafer-based
solar cells., TI is a global semiconductor
design & manufacturing company. Innovate
with 80,000+ analog ICs & embedded
processors, software & largest sales/support
staff., A semiconductor material has an
electrical conductivity value falling between
that of a conductor such as copper, gold
etc. and an insulator, such as glass.Their
resistance decreases as their temperature
increases, which is behaviour opposite to

that of a metal., ON Semiconductor offers a
comprehensive portfolio of innovative energy
efficient power and signal management,
logic, discrete, and custom semiconductor
solutions., Military Performance
Specifications 19500 " General
Specification for Semiconductor Devices
38534 " Performance Specifications for
Hybrid Microcircuits, JEDEC STANDARD

KAMAN PRECISION PRODUCTS /
MEASURING A Division of Kaman

Aerospace. Kaman Inductive Technology Applications Guide.pdf: Kaman Precision Products / Measuring is a division of Kaman Aerospace Corporation., Wafel krzemowy, podłójce krzemowe, plaster krzemowy –“ cienka płytka monokrystalicznego krzemu, używany do wytwarzania chipów krzemowych (mikroprocesorów, mikrokontrolerów i innych układów scalonych), ogniw słonecznych oraz mikroukładów elektromechanicznych., We report classes of electronic systems that achieve thicknesses, effective elastic moduli, bending stiffnesses, and areal mass densities matched to the epidermis.
