Pneumatic and Hydraulic Actuators Next  
Generation Actuation Technologies

Solutions, Pneumatic Actuators. Advantages

â€¢ The benefits of pneumatic actuators  
come from their simplicity. Most pneumatic

aluminum actuators have a maximum  
pressure rating of 150 psi with bore sizes

ranging from ½ to 8 in., which translate into  
approximately 30 to 7,500 lb. of force., An

actuator is a component of a machine that is  
responsible for moving and controlling a

mechanism or system, for example by  
opening a valve. In simple terms, it is a

"mover". An actuator requires a control signal  
and a source of energy. The control signal is

relatively low energy and may be electric  
voltage or current, pneumatic or hydraulic

pressure, or even human power., 6 UT

1.866.842.3144, About HPE Automation.

Serving all of Florida, the Caribbean, and

Central & South America since 1980! HPE

Automation originally started in business as

Hydraulic & Pneumatic Engineering in 1980.,

Hydraulic machines are machinery and tools

that use liquid fluid power to do simple work.

Heavy equipment is a common example.. In

this type of machine, hydraulic fluid is

transmitted throughout the machine to

various hydraulic motors and hydraulic

cylinders and becomes pressurised

according to the resistance present. The fluid

is controlled directly or automatically by

control valves and ..., Pneumatic cylinders,

linear and rotary actuators from Parker,

Clippard, DESTACO and Bansbach., 2

challenges...the guardian of the pipeline.,  
»Vertical return filters are designed for  
mounting directly on top of oil tanks used in  
hydraulic systems. They prevent the dust  
generated within the circuit from entering the  
tank and help keep the oil clean. This  
efficient configuration reduces the total  
number of filters required. »It is possible to  
detect clogging with the differential pressure  
indicator and differential pressure ..., Please  
click the product picture and download the  
PDF catalogue, Parker Store . We stock a  
full inventory of hoses for all hydraulic and  
pneumatic applications. From tubing to  
Parflex and no-skive hoses, the Parker store  
has exactly what you need to get up and  
running again - fast., Eagle Equipment
