The Immune System Fourth Edition Chapter

2 Innate Immunity: The Immediate, In abnormal situations, the immune system can mistake self for nonself and launch an attack against the body's own cells or tissues. The result is called an autoimmune disease. Some forms of arthritis and diabetes are autoimmune diseases. In other cases, the immune system responds to a seemingly harmless foreign substance such as ragweed pollen., site of infection the innate system will initiate repair and healing. Importantly, activation of the innate system is also essential for the triggering of adaptive immune responses
