SOLUTIONS MANUAL;, Economics (/ É' k É™ È n É' m Éª k s, iÈ• k É™-/) is the social

science that studies the production, distribution, and consumption of goods and

services.. Economics focuses on the behaviour and interactions of economic

agents and how economies work., In economics, an externality is the cost or

benefit that affects a party who did not choose to incur that cost or benefit.

Economists often urge governments to adopt policies that "internalize" an externality, so

that costs and benefits will affect mainly parties who choose to incur them., The

World Bank Group works in every major area of development. We provide a wide array of

financial products and technical assistance, and we help countries share and apply
