Interpersonal psychoanalysis is based on the theories of American psychiatrist Harry Stack Sullivan (1892–1949). Sullivan believed that the details of a patient's interpersonal interactions with others can provide insight into the causes and cures of mental disorder.. Current practitioners stress such features as the detailed description of clinical experience, the mutuality of the ..., An interpersonal relationship is a strong, deep, or close association or acquaintance between two or more people that may range in duration from brief to enduring. This association may be based on inference, love, solidarity, regular business interactions, or some other type of social commitment. Interpersonal relationships are formed in the context of social, cultural and other influences., The discovery of Interpersonal Psychotherapy is a great example of scientific serendipity, in that, it was discovered by accident. The story goes

that in 1969 the U.S. National Institute of Mental Health began a new policy of evaluating mental health treatments in the same way other medical treatments are tested., What is Narrative Therapy? A Definition. Narrative therapy is a form of therapy that aims to separate the individual from the problem, allowing the individual to externalize their issues rather than internalize them. It relies on the individual's own skills and sense of purpose to guide them through difficult times (– Narrative Therapy–, 2017),.
