Informatics is a branch of information engineering. It involves the practice of information processing and the engineering of information systems, and as an academic field it is an applied form of information science. The field considers the interaction between humans and information alongside the construction of interfaces, organisations, technologies and systems., The American

Reinvestment & Recovery Act (ARRA) was

enacted on February 17, 2009. ARRA

includes many measures to modernize our

nation's infrastructure, one of which is the

"Health Information Technology for Economic

and Clinical Health (HITECH) Act"., Keith
