See ISO 13628-7 for requirements to components which is in the riser string., Offshore Engineering and Technology Day1AM 1 THREE DAY SHORT COURSE

Course Presentation An introduction on Offshore Engineering and Technology, Dr. Qiang Bai obtained a doctorate for Mechanical Engineering at Kyushu University, Japan in 1995. He has more than 20 years of experience in subsea/offshore engineering including research and engineering execution. He has worked at Kyushu University in Japan, UCLA, OPE, JP Kenny, and Technip., Download Introduction to System Reliability Engineering on PDF Watch Video 1: Safe and Reliable Offshore Operations Advanced Subsea Production System (SPS) Professional Courses Subsea production system is associated with the overall process and all..., All segments of a subsea production system “ From: Subsea engineering handbook “ ELSEVIER 2010 A subsea production system consists of a subsea completed well, subsea Christmas trees and wellhead systems, subsea tie-in to flow line system, jumpers, umbilical and riser system and subsea equipment to operate the well.
