Precursors to IQ testing. Historically, even

before IQ tests were devised, there were

attempts to classify people into intelligence

categories by observing their behavior in

daily life. Those other forms of behavioral

observation are still important for validating

classifications based primarily on IQ test

scores., The connection between race and

intelligence has been a subject of debate in

both popular science and academic research

since the inception of IQ testing in the early

20th century. There remains some debate as

to whether and to what extent differences in

intelligence test scores reflect environmental

factors as opposed to genetic ones, as well

as to the definitions of what "race" and ...,
