Hill. Download it once and read it on your Kindle device, PC, phones or tablets. Use features like bookmarks, note taking and highlighting while reading Ivorybill Hunters: The Search for Proof in a Flooded Wilderness., David Sibley, "Ivorybill Hunters: The Search for Proof in a Flooded

Wilderness. By Geoffrey E Hill. , " The Quarterly Review of Biology 82, no. 4 (December 2007): 426-426., Status and trends of American Flamingos (Phoenicopterus ruber) in Florida, USADemographic response of Louisiana Waterthrush, a stream obligate songbird of conservation concern, to shale gas development, Ivorybill Hunters has 29 ratings and 1 review. Richard said: Great Windsor connection through Dan Mennill and Stephanie Doucet, Ornithologists that I hir..., The Ivory-billed Woodpecker holds the attention of birders and naturalists like no other species of bird, so it was huge news in 2005 when the Cornell Lab of Ornithology announced that an Ivory-billed Woodpecker had been found and recorded on video along the Cache River., Written like a good detective story, Ivorybill Hunters also delves into the science behind the rediscovery of a species, explaining how professional ornithologists follow up on a sight record of a rare bird, and how this differs from the public's perception of how scientists actually work. Hill notes the growing role of amateurs

in documenting ..., "Ivorybill Hunters" reads like a good detective novel filled with political intrigue, clashing agendas, and a forest of tantalizing leads, most of which ended up as dead ends. The ivorybill has taken on such a mythic status that one could compare it to another famous bird, the Maltese Falcon, both of which are the stuff on which dreams, and in the case of the ivorybill, reputations and history, are made., Ivorybill Hunters will prove a fascinating read for those with an interest in natural history, adventure, environmental conservation, and science, as well as the more than forty-six million Americans who now call themselves birdwatchers., The image on the video is frustratingly, tantalizingly suggestive, but in the opinion of all the primary searchers on the Auburn/Windsor Ivory-billed Woodpecker research team this video is not proof of the existence of ivorybills. The bird in the video has plumage features and flight pattern consistent with an Ivory-billed Woodpecker, but the plumage pattern on the bird is not clear enough for the bird in the video to be conclusively identified.
