tachyon (/ Ę t Ā! k i Ę' n /) or tachyonic

particle is a hypothetical particle that always

moves faster than light. Most physicists

believe that faster-than-light particles cannot

exist because they are not consistent with

the known laws of physics. If such particles

did exist, they could be used to build a

tachyonic antitelephone and send signals

faster than light, which (according to ...,

equations of motion are equations that

describe the behavior of a physical system in

terms of its motion as a function of time.

More specifically, the equations of motion

describe the behaviour of a physical system

as a set of mathematical functions in terms of

dynamic variables: normally spatial

coordinates and time are used, but others

are also possible, such as momentum ...,

I have read many books for laypeople (yes, I was a layperson once myself, and I remember, at the age of 16, reading about this stuff) and all of them talk about virtual particles and, Email: markrainsun(at)gmail(dot)com Here are some listed... SYLLABI FOR LATERAL ENTRY STREAM (DIPLOMA) The syllabi given here for JEE-2018 (Lateral entry diploma holders in Engineering / Technology), Current Conflicts in General Relativity: is Einstein's Theory Incomplete? Authors: Kathleen A. Rosser Comments: 14 Pages. A review of refutations of general relativity commonly found in today's literature is presented, with comments on the status of Einstein's theory and brief analyses of the arguments for modified gravity., To make interacting photons, the team shone a weak laser through a cloud of cold rubidium atoms. Rather than emerging from this cloud separately, the photons within the laser merged bound in groups of three., JEE Advanced 2018 Syllabus: The official organisers of JEE (Advanced) has now released the Syllabus of JEE Advanced on its official website i.e., jeeadv.ac.in.
