results, The Unified Modeling Language  
(UML) is a general-purpose, developmental,  
modeling language in the field of software  
engineering, that is intended to provide a  
standard way to visualize the design of a  
system.. The creation of UML was originally  
motivated by the desire to standardize the  
disparate notational systems and  
approaches to software design., Social  
cognitive theory (SCT), used in psychology,  
education, and communication, holds that  
portions of an individual's knowledge  
acquisition can be directly related to  
observing others within the context of social  
interactions, experiences, and outside media  
influences. The theory states that when  
people observe a model performing a  
behavior and the consequences of that  
behavior, they ..., Managerial Implications of  
Evolutionary Psychology . Evolutionary

psychology offers a theory of how the human  
mind came to be constructed. And that mind,  
according to evolutionary psychologists, is  
hardwired in ways that govern most human  
behavior to this day., 1998 Human
