Photo, In digital imaging, a pixel, pel, dots, or
picture element is a physical point in a raster
image, or the smallest addressable element
in an all points addressable display device;
so it is the smallest controllable element of a
picture represented on the screen.. Each
pixel is a sample of an original image; more
samples typically provide more accurate
representations of the original., The MPMan
music player, manufactured by the South
Korean company SaeHan Information
Systems, debuted in Asia in March 1998,
and was the first mass-produced portable
solid state digital audio players.. The internal
flash memory could be expanded, but there
was no support for external memory. It was

delivered with a docking station. To put
music into the device, the music first had to
be encoded ..., HP EliteBook 2530p
