NOTES ON OXIDATION REDUCTION AND ELECTROCHEMISTRY PDF - Search

results, Redox (short for reductionâ€œoxidation reaction)

(pronunciation: / ˈr ɛ d ɛ k s / redoks or /

ˈr i ɛ d ɛ k s / reedoks) is a chemical

reaction in which the oxidation states of

atoms are changed. Any such reaction

involves both a reduction process and a

complementary oxidation process, two key

concepts involved with electron transfer

processes. Redox reactions include all

chemical ..., Reduction potential (also known

as redox potential, oxidation / reduction

potential, ORP, pE , $\hat{\mu}$, or) is a measure of

the tendency of a chemical species to

acquire electrons and thereby be

reduced.Reduction potential is measured in

volts (V), or millivolts (mV). Each species has

its own intrinsic reduction potential; the more

positive the potential, the greater the species'

affinity for ..., E l e c t r o c h e m i s t r y C h
