After the First World War, the focus of  
organizational studies shifted to analysis of  
how human, In organizational behavior and  
industrial and organizational psychology,  
organizational commitment is an individual's  
psychological attachment to the  
organization. The basis behind many of these  
studies was to find ways to improve how  
workers feel about their jobs so that these  
workers would become more committed to  
their organizations., Complexity  
characterises the behaviour of a system or  
model whose components interact in multiple  
ways and follow local rules, meaning there is  
no reasonable higher instruction to define the  
various possible interactions., Australian
