System of belt integrity sets a new standard

for monitoring, maintenance, In 1852, Elisha

Otis introduced the safety elevator, which

prevented the fall of the cab if the cable

broke. He demonstrated it at the New York

exposition in the Crystal Palace in a

dramatic, death-defying presentation in 1854,

and the first such passenger elevator was

installed at 488 Broadway in New York City

on March 23, 1857., Efficient vertical mobility

is a critical component of tall building

development and construction. This paper

investigates recent advances in elevator

technology and examines their impact on tall

building development.
