PROPELLANT TANKS IHI PDF - Search results, The Panzerfaust 3 (lit. "armor fist" or "tank fist") is a modern disposable recoilless anti-tank weapon, which was developed between 1978 and 1985 and put into service by the Bundeswehr in 1992. It was first ordered in 1973 to provide West German infantry with an effective weapon against contemporary Soviet armour, thereby replacing West Germany's aging PzF 44 Light Lanze launchers and the ..., The H-II Transfer Vehicle (HTV), also called Kounotori (ã•ã•†ã•@ã•ã•Š, KÅ•notori, "Oriental stork" or "white stork"), is an automated cargo spacecraft used to resupply the KibÅ• Japanese Experiment Module (JEM) and the International Space Station (ISS). The Japan Aerospace Exploration Agency has been working on the design since the early 1990s. The first mission, HTV-1, was originally ...
