Mathematical finance, also known as
quantitative finance, is a field of applied
mathematics, concerned with mathematical
modeling of financial markets. Generally,
mathematical finance will derive and extend
the mathematical or numerical models
without necessarily establishing a link to
financial theory, taking observed market
prices as input., Accounting. In corporate
finance and the accounting profession,
financial modeling typically entails financial
statement forecasting; usually the
preparation of detailed company-specific
models used for decision making purposes
and financial analysis., CORPORATE
