It contains short discrete fibers that are uniformly distributed and randomly oriented. Fibers include steel fibers, glass fibers, synthetic fibers and natural fibers “ each of which lend varying properties to the concrete. In addition, the character of fiber-reinforced concrete ..., Reinforced Concrete Pipes Australia is a wholly Australian owned concrete pipe company originating from the merger of Reinforced Concrete Pipes (RCP) and Australasian Pipeline and Pre-Cast (APP)., Glass fiber reinforced concrete or GFRC is a type of fiber-reinforced concrete. The product is also known as glassfibre reinforced concrete or GRC in British English. Glass fiber concretes are mainly used in exterior building façade panels and as architectural precast concrete., traditional steel-reinforced
