Have Grave Concerns About This Document,

A robotic vacuum cleaner, often called a

robovac, is an autonomous robotic vacuum

cleaner which has intelligent programming

and a limited vacuum cleaning system. The

original design included manual operation via

remote control and a "self-drive" mode which

allowed the machine to clean autonomously

without human control., The expanding ability

of robots to take unsupervised decisions

renders it imperative that mechanisms are in

place to guarantee the safety of their

behaviour., Technological unemployment is

the loss of jobs caused by technological change. Such change typically includes the introduction of labour-saving "mechanical-muscle" machines or more efficient "mechanical-mind" processes (). Just as horses employed as prime movers were gradually made obsolete by the automobile, humans' jobs have also been affected throughout modern history., Epicor Software Corporation, a global provider of industry-specific enterprise software to promote business growth, announced today that Winix America, a global manufacturer of air cleaners, air washers, and water filtration, has selected the global-efficient wireless non-radiative mid-range energy transfer Aristeidis Karalis a\*, J.D.
