Contesting the widespread notion in the  
1980s that place no longer mattered to,  
Globalization has been interpreted as  
fluidization of goods, capital and knowledge  
on a global scale by Sassen (2000) who  
connects theory of "Global Cities" to the two  
main factors such as economic globalization  
and organizational structure of service  
sectorsfinance., What distinguishes Sassen's  
theoretical framework is the emphasis on the  
formation of cross-border dynamics through  
which these cities and the growing number of  
other global cities begin to form strategic  
transnational networks. All the core data in  
this new edition have been updated, while  
the preface and epilogue discuss the

essays in Saskia Sassenâ€™s collection  
introduces a new type of complexity and  
ambiguity to the study of the global,  
confronting questions of space and the fact  
that both the local and the global are  
increasingly multi-scalar. In turn, the  
chapters in this book expand the analytic  
terrain of the global, demanding new  
methodologies and interpretive frames for  
the study of globalization., CITYNESS IN  
THE URBAN AGE Saskia Sassen,  
Centennial Visiting Professor, ... on global  
cities, for instance, I address this issue  
through the notion of non-cosmopolitan  
forms of the global, of globality and  
vernacular cosmopolitanism. But as the  
Urban Age moves from one city to another,

from New York to Shanghai, this becomes a critical question. In Shanghai, many interventions seem to be ...
