FAQs Question Answer Q: How many
zone/circuit fire alarm panel do I need? A:
The size of a fire alarm panel is determined
by a number of factors, including the size of
the building, the number of devices, and the
job's requirements. A zone is a defined area
in a building in which related functional items
work together., How accurate is GPS? It
depends. GPS satellites broadcast their
signals in space with a certain accuracy, but
what you receive depends on additional
factors, including satellite geometry, signal
blockage, atmospheric conditions, and
receiver design features/quality., Traffic
